

advocate/survivor/filmmaker - www.privateviolence.com

We are about to finish our documentary (Private Violence) on gender-based violence in the US. We have a website (www.privateviolence.com) with clips from the film and other short films we've done to address violence against women (to be used at no cost for community ed events), and we also have a FB page, Private Violence Documentary Project.

Please share the website with your participants,

Thanks very much.

In peace,

Kit Gruelle
